ABOUT REALOGISTICS

A real Intelligent Logistics Expert At Your Service

Realogistics was founded in 2006 and has already grown into a comprehensive supply chain enterprise. Its mature trade and logistics system around the world can fully meet customers' global supply chain needs and lead the innovation of the logistics value chains.

Realogistics is a leading international freight forwarding company in China with a global business scope. Realogistics operate with the philosophy of safety, speed, integrity, and pragmatism, and provide high-quality services to create value for our customers and help them gain competitive advantages in the market. We offer one-stop comprehensive logistics supply chain solutions to customers around the world.

CORE COMPETENCE

▪ Core Competence

Core Value

Service Capability

Global Network

Informationized Management

▪ Carrier Cooperation

CORE VALUE

Global Resources

Realogistics' overseas agent network is spread all over the world, which can quickly integrate international resources and provide one-stop services such as sea, air, railway and land transportation.

IT Capability

Realogistics' IT team has built its own supply chain management platform composed of ERP, WMS, TMS & OMS, which is to provide cross platform integration, tracking and query, collaborative visualization, statistical analysis and other services.

Professional Team

Realogistics' team is professional, efficient and experienced to ensure high-quality service throughout the whole process.

Continuous Innovation

Adhering to the innovation concept, Realogistics always stands at the forefront of logistics technology and provides customers with more comprehensive value-added services through technological innovation.

SERVICE CAPABILITY

Global Network

Realogistics' overseas agent network covers the entire world and can provide customized transportation services for customers.

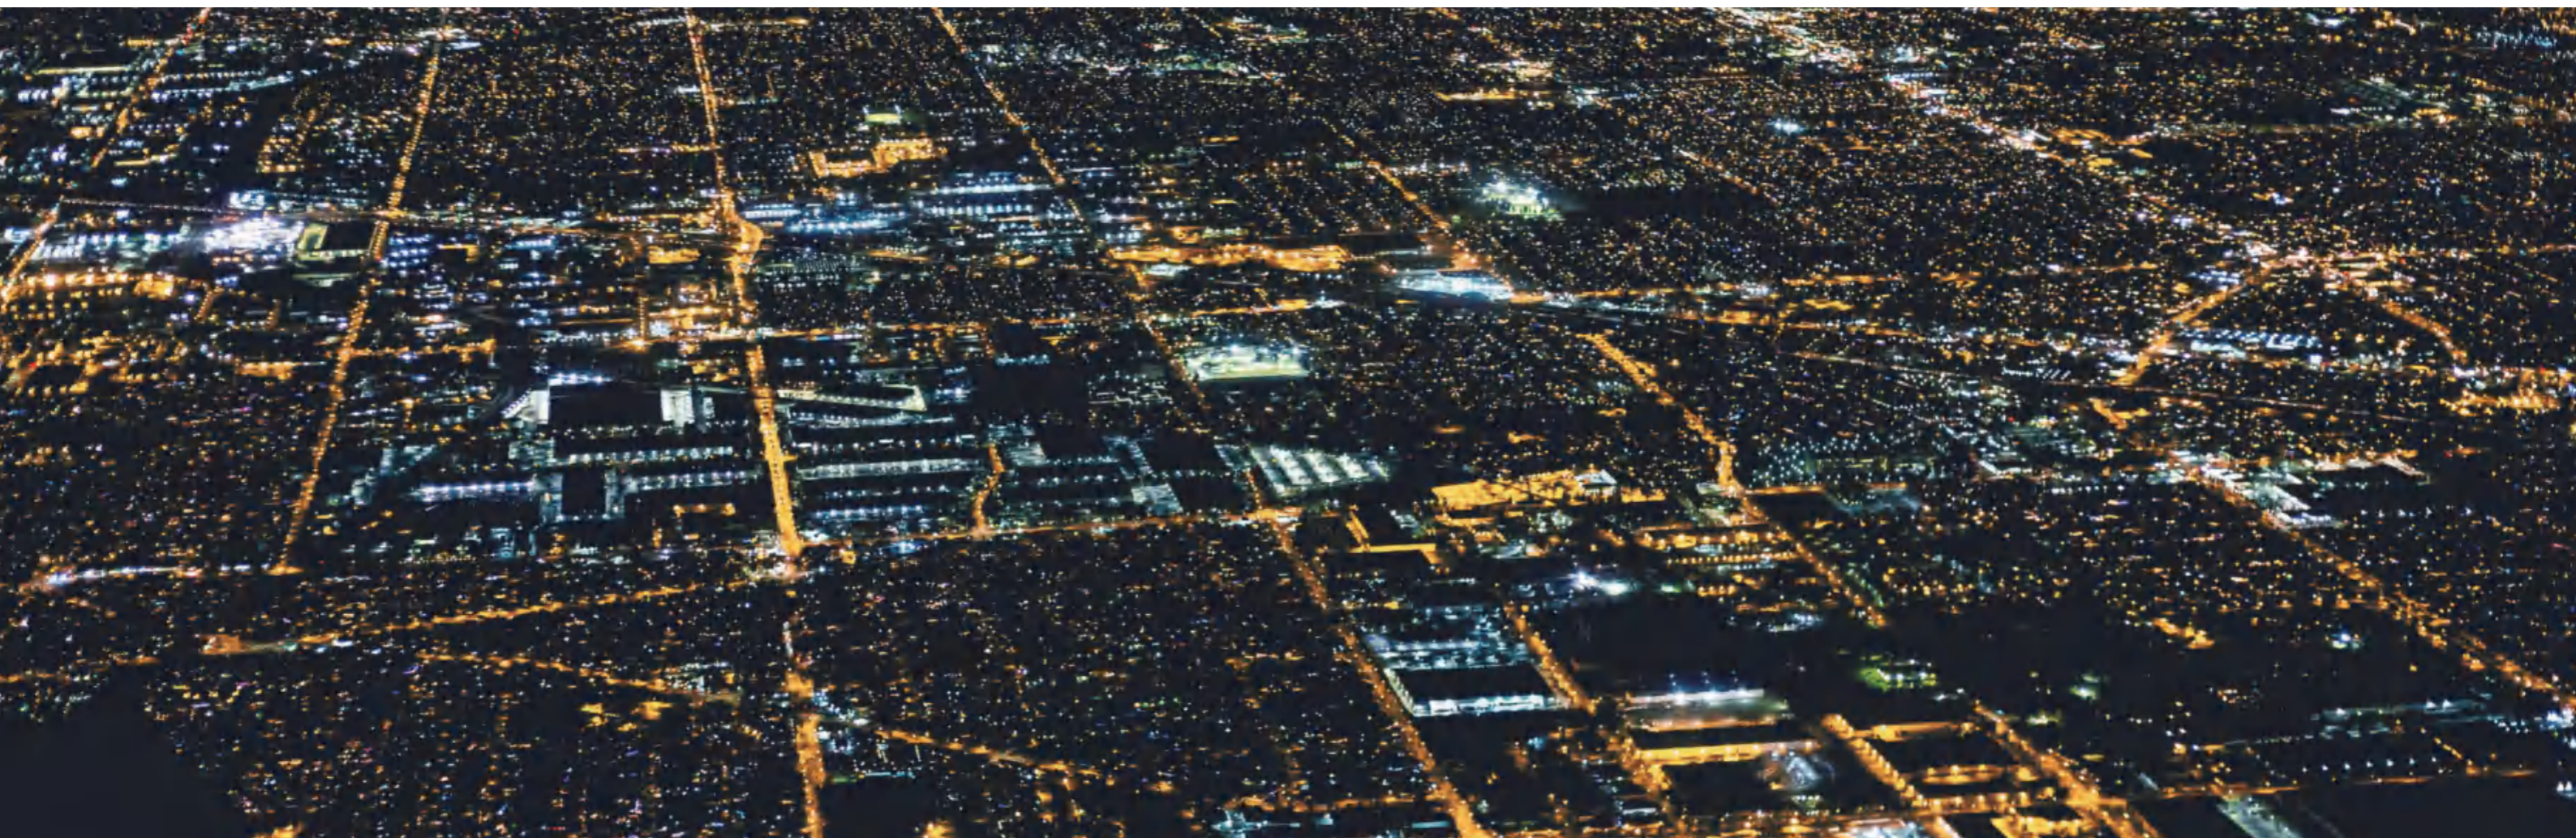

Informationized Management

Realogistics' IT Capability

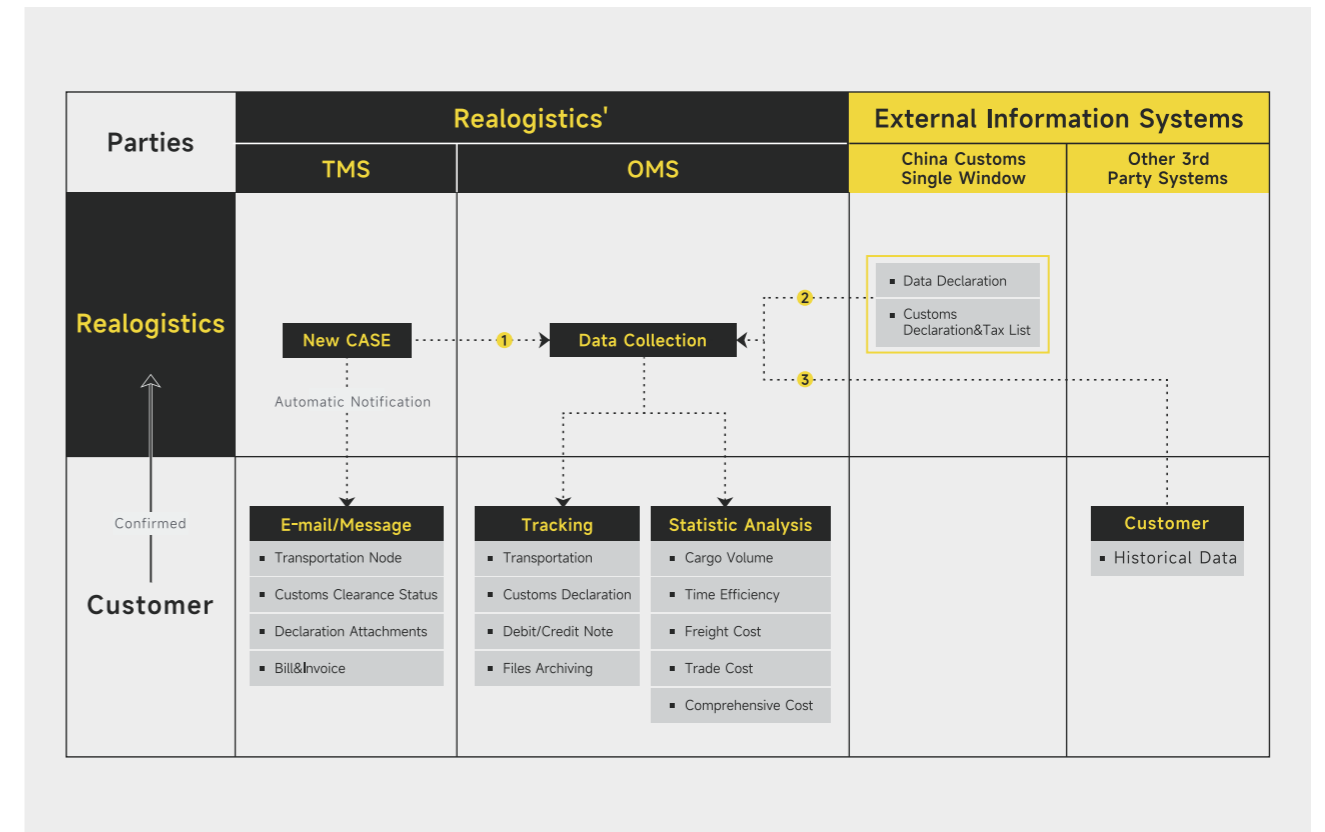

Realogistics' "IT subsidiary" has built its own "Informationized Logistics Management Platform", which realizes information symmetry in all links of the logistics chain and supports the networking and interconnection among various modes of transportation such as sea, land and air transportation:

- Online: Realogistics provides informationization services for customers through TMS, WMS, OMS, WeChat and other channels;
- Offline: Realogistics integrates high-quality transportation resources, reduces logistics costs through centralized procurement, and provides global customers with integrated international logistics solutions.

LOGISTICS SUPPLY CHAIN SOLUTIONS

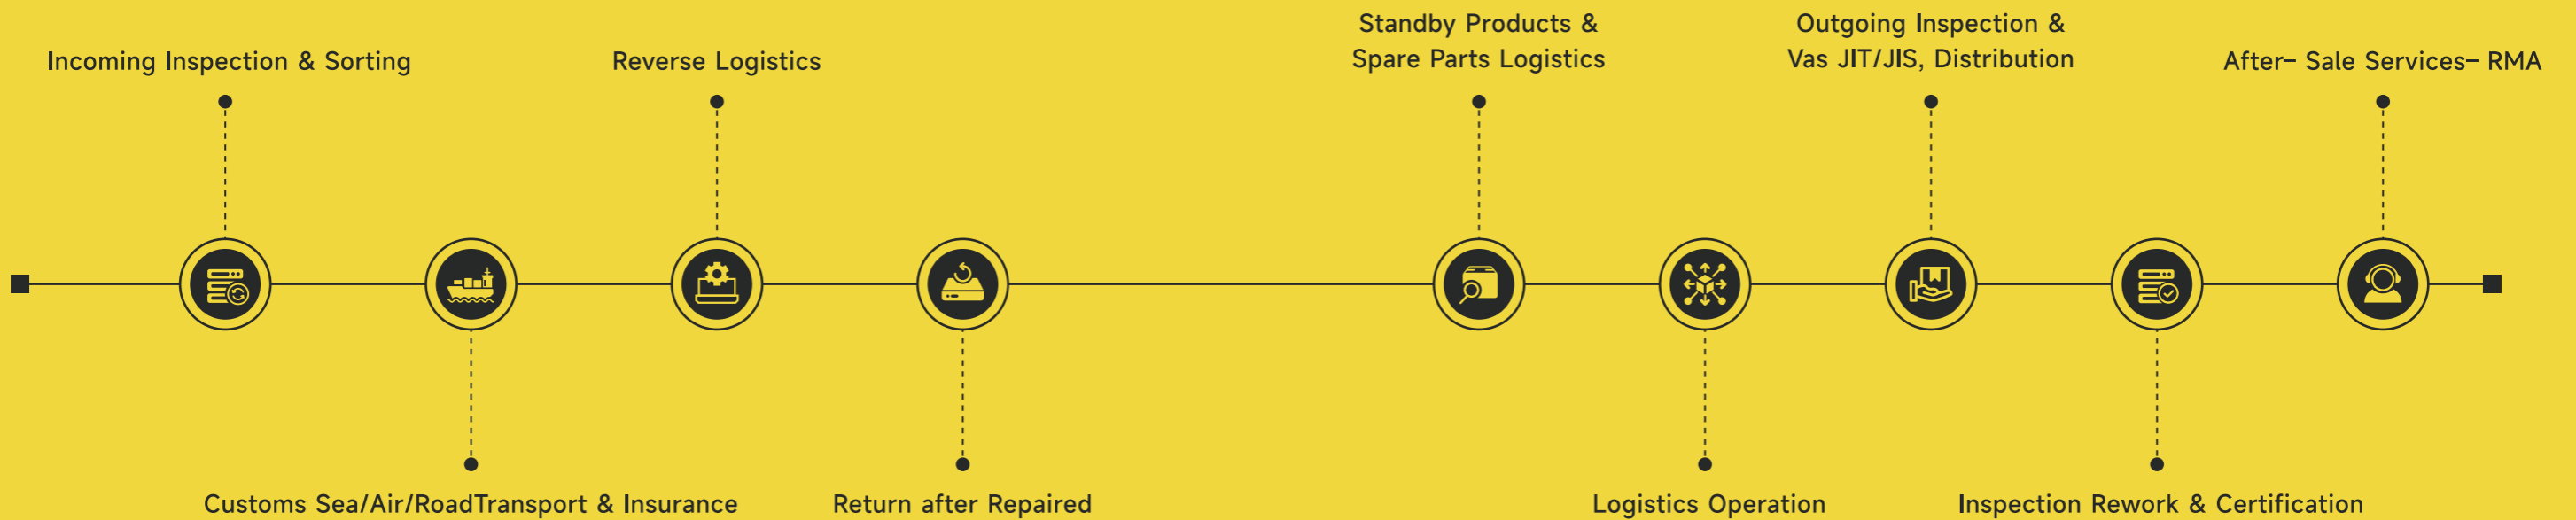

Reverse Logistics

Realogistics' reverse logistics solutions include a series of after-sales logistics integrated solutions such as return, renovation, repair, spare parts logistics and standby machine logistics. By perfectly connecting the upstream and downstream of the supply chain, it can help enterprises optimize the reverse logistics business process, reduce

the goods circulation links, shorten the goods circulation time, and provide customers with highly satisfactory services with the highest efficiency.

REVERSE LOGISTICS AND REPAIR | SUPPLY CHAIN MANAGEMENT – TOTAL SOLUTION

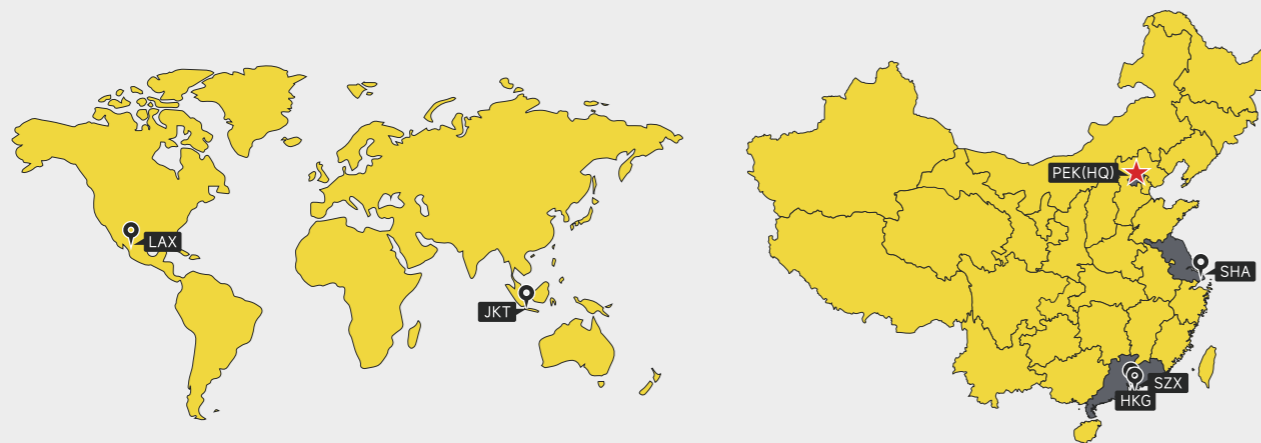

LOGISTICS SUPPLY CHAIN SOLUTIONS

Overseas Warehouse

Realogistics has established a complete overseas warehouse service system in Hong Kong, Beijing, Shanghai, Shenzhen, Jakarta, Los Angeles, which can comprehensively provide the following overseas warehouse services:

- Advance Storage
- Easy Distribution
- Real-Time Order Data and Inventory
- Lowest Cost
- Share Transport Info. and Sales Website
- Reverse Logistics
- Support FIFO/VMI/Cross Dock/Serial Number Management

Supply Chain Traceability

Based on the IoT RFID and real-time monitor and GPS & GPRS, Realogistics has created a dedicated "Logistics Supply Chain Traceability Service System" for customers. By means of QR code scanning, package correlation and video collection, Realogistics helps customers make an external supply-chain loop for cross-border logistics and build a data credit system to achieve traceability of the entire logistics process from factories, warehouses, distributors to consumers.

- Authenticity and Traceability
- Prevents Fleeing the Goods
- Real time video broadcasting and capturing
- Order Flow, Information Flow and Logistics 3 in 1
- Personalized customization of traceability information

XIAOMI FOUNDATION

Thank you Letter

To Realogistics Int'l (Beijing) Co.,Ltd.

In late 2019 and early 2020, a sudden outbreak of COVID-19 deeply touched the world. Xiaomi responded with a large-scale international donation campaign, delivering over 2 million medical supplies to governments and healthcare institutions in 16 countries.

We extend our heartfelt appreciation to your esteemed company for its support. Every employee who participated in Xiaomi's international donation campaign has played a vital role. Your dedication and commitment have truly made a difference, reflecting the essence of Realogistics as a brand.

Quoting the words of Seneca, "We are waves of the same sea, leaves of the same tree, flowers of the same garden," we share this sentiment with your esteemed company. Together, we face the challenges brought by the pandemic and stand united. We sincerely thank you for your ongoing support in Xiaomi's global anti-pandemic efforts. Let us persevere and believe in the ultimate victory.
